How We Determined the Top High Roller Online Casinos

We found what we think are certainly several of the world's best online casinos for high rollers.

Our primary concern was the size of the bets accepted by the casinos. However, we also considered the type of software used, the casino's reputation and the casino's payback percentages into consideration in coming up with this list.

We admit to some subjectivity, in that we picked casinos where we have played and have had good experiences.

Please note that we are not affiliated with any of these casinos. Most web sites that recommend online casinos are affiliates of the casinos and are paid a portion of the *money lost* by players. While our recommendations are somewhat subjective, they are in no way influenced by any compensation received from the casinos we recommend. We certainly would not recommend a casino where we are paid a percentage of your losses. Besides, if you use one of our systems, you won't have very many losses.

Full Bovada Casino Review

The story of Bovada Casino parallels the story of the online casino market over the past few years. Bovada wouldn't exist without changes to gambling law in America, such as the 2006 UIGEA bill and different state laws against placing online wagers. That's because Bovada.lv is nothing more than Bodog's attempt to get back into the American

market after being scared away by the murky legal position of online gaming in the United States.

Bovada.lv is the new American-facing casino and poker gaming site put together by Bodog to give Americans access to online casino gambling. Bovada and Bodog are essentially run by the same operator with a different name and different designs. When you think of the name “Bovada,” think of it as Bodog for online gamblers who live in the USA.

Let me give you some examples of Bovada’s odds –

They offer some of the best baccarat games around. You will find Full-Pay Jacks or Better returning 99.54%. In addition there are six other video poker games paying over 99%.

Bovada offers [single-zero roulette](#) which has much better odds than the double-zero version of the game.

They also offer two variations of blackjack with a house edge under 0.2%.

If you are a poker fan, try their Pick’em Poker with a 99.95% payback rate

No-Hassle Practice Games

I am a great believer in using practice games. There is no easier way to perfect your skills and to determine if you like playing in a particular online casino than to try it out for a “Free Ride.”

Unfortunately, too many of the online casinos go out of their way to try to grab some of your money as their price for getting to practice for free.

First you will have to download their software in order to play. If they do have a game you can play from your browser without a download you are usually asked to register an account before you can play. And, once you register, look out. They will start bombarding you with emails trying to get you to deposit real money.

Full Casino Titan Review

Online since 2008, Casino Titan is a Real Time Gaming-powered online gambling site that accepts bets from players in the United States. As more and more casino sites pulled out of the American market after the passing of anti-Internet gambling legislation in 2006, enterprising casino groups found ways to open their doors to the American market. Casino Titan didn't even start doing business until two years after the US government's controversial UIGEA bill went into effect, and has always accepted bets from Americans. What Casino Titan offers to set it apart from other RTG-powered gaming sites that accept American bets is a big lineup of bonuses and promotions tailored to different types of gamblers. There are two different welcome bonuses, one for high rollers, one for your

average online gambler. There's a VIP club offering loyalty points for wagers on certain games. Special promotions pop up on the site regularly and with no warning, offering a quick 10% match as a reload bonus or a monthly special on referrals.

Truly unique to Casino Titan's promotional program: a guest blogger promotion where you can share about playing at Casino Titan and earn a quick \$15 and have your work published on the site's blog. Casino Titan has more promotional deals and bonuses than your average online gaming site, and the guest blogger offer is something that doesn't exist anywhere else online.

Full Win Palace Casino Review

Win Palace Casino is an online power room run on the reputable Real Time Gaming software. Owned by Netad Management Company, it was started in 2009 under the jurisdiction of Curacao. The casino is a multilingual online gaming platform whose software supports English, Spanish, German, Italian, and French. The casino is also a brand of the Affactive affiliate program.

This is one of the few online casinos that cater to American players without any statehood restrictions, which is a genuine rarity considering the mass migration of casinos

from the US market caused by the UIGEA of 2006. You also receive world class customer service, ensuring that all your experiences on board are smooth and flawless.

Regardless of the kind of gambler you think of yourself as, there should never be holding back when it comes to getting the most lucrative bonuses online. Win Palace Casino is the home of an impressive array of bonuses and weekly specials, which is actually one of the casino's biggest attractions. Register as a new player and you'll receive a cool \$1,000 in Welcome Bonus. You receive it as a 200% bonus for your first two deposits up to \$500.

There are smaller welcome bonuses for playing some cash games, usually awarded on the basis of the first deposit made. If you love playing the Slots games, there is a whopping \$3,000 Slots Bonus. You receive it as 300% of your deposit. For the blackjack enthusiast, you get 100% \$500 bonus and for you who fancies Video Poker, the bonus is also 100% \$500. There is a 200% High Roller Bonus too that requires at least \$750 in the first deposit and can give you as much as \$2,000. The bonus structure is designed to give you a greater bonus percent the more your deposit amount is.

Win Palace Casino is Compatible with Mobile

With its impressive growth, Win Palace Casino does have an iPad casino app which also works on the iPhone and iPod. Unfortunately, they have yet to release any games for the Android or Windows Mobile users.

Win Palace Casino Games

There are over 120 casino games played at Win Palace Casino. Though this number is relatively small compared to what the industry giants have to offer, the casino still remarkably meets all the needs of its players with its selection of table games, roulette, Craps, specialty games, video poker, and Reel Series slots. The table games are such as baccarat, blackjack, casino poker, red dog, three card rummy, and war. For the video poker variants, you'll come across both single hand and multi hand formats. There is also roulette, offered as both European and American roulette variants.

There is a complete spread of slots, which include three-reel slots, five-reel slots, and progressive jackpots with huge payouts. There are also the daily slots tournaments that the casino has become synonymous with, including Texas Tycoon, Crystal Waters, and Loose Caboose. These tournaments have guaranteed prize pools and are hosted as part of the Win Palace Casino's promotional campaign.

The payout percentage at Win Palace Casino is one of the best at around 98.2% and is reason enough for you to sign up.

Win Palace Casino Software

The software developed by Real Time Gaming powers Win Palace Casino, making it one of the most reliable and stable gaming platforms across the online gambling industry.

This software runs like clockwork on PC and Mac, and you get to play your favorite games either by downloading them or on your browser using Flash media. It brings a game variety that is diverse and of the highest standards.

Whether you are playing the classics or progressive slots, the sound and image quality is no less than perfect and you are undoubtedly in a real 3D casino. It has incredibly realistic 3D graphics and a stereo sound that will cast a spell on you and keep you glued to your screen hours on end. The 3D gambling experience you get from downloading the software is simply exquisite, and is a huge reason for Win Palace Casino's conspicuousness in this crowded arena. These video-style games are the latest in the industry's technology and a standard feature for gaming sites hoping to attract modern casino gamers.

Loyalty rewards Program

Loyal players at Win Palace Casino are rewarded with membership to the VIP Club. Once you are in, you find yourself staring in the face of the coolest perks anywhere and numerous advantages. Some of these include a personal manager, special bonuses, and significantly higher table limits. Entering this club is by invitation, but you can still request for a special VIP Club invitation if you are a high roller and have spent a certain amount at the table games. Any concerns you have regarding the program will be addressed to you via vipclub@winpalace.com.

Banking Methods Accepted

The payment methods are safe and wagering is accepted in US Dollars, although Euros are also accepted but at the Win Palace Euro Casino. You can also use the Pound Sterling for transactions.
